Who We Are

Basic Thread Industries LTD is a sister concern of Basic Group. We are a private limited company established in 1997 and we have started commercial operations at Tejgaon industrial area. Our main products are yarn dyeing and sewing threads. With an expansion we have relocated our production unit to Bagherbazar, Gazipur, with the landscape area of 100,000 square feet and our production floor area is 170,000 square feet.

Our new factory is equipped with modern technology machines and a laboratory to cater buyer's standards at utmost satisfaction for continues development. Our dyeing capacity starts from 1 KG to 1000KG and total 41 dyeing vessels to make the various size according to the customer's order quantity and sample support. We care the nature hence our ETP is 100% Japanese Biological Formula and we do not use any chemicals.

Basic Threads Industries have employed well experience highly professionals in R&D and production and most of them are currently working under Basic Threads LTD over a decade. We are offering multiple products such as Spun Polyester sewing thread, Nylon Polyester filament thread, Nylon thread in cone or pineapple according to customer's requirement and full range of dyed yarn accessories such as jacquard elastic, twill tapes, drawstrings, draw cords, webbing belts. Moreover, we have recently launched Flat knit ribs.

All our products are certified by BSCI, OEKO-TEX 100, appendix 6, class 1, SEDEX, ICS and GRS for our recycled products.

We, Basic Threads is continuously doing the researches on manmade fibers to be self-sufficient in Bangladesh RMG industries, and we are Continuously doing the researches on sustainability products as well.

MESSAGE FROM CEO

Iftekhar Hossain
Chief Executive Officer

I'm very proud to look back at the amazing journey that Basic Group started in 1997. Over the past 25 years, we've grown from a small business to a well-known maker and seller of things like Garments accessories and Trims for clothes. Our strong dedication, hard work, and desire to do things perfectly have brought us to this special point. I know that our success

isn't just because of me; it's also because of the effort and hard work of all our employees. It's the commitment and shared vision of everyone in our company that got us here. Basic Group has faced challenges, dealt with uncertainties, and made changes over the years. But our commitment to making high-quality products, being creative, and making our customers happy has always stayed the same. These principles have helped us change and do well in the competitive garments industry.

At Basic Group, we're not just about making Garments Accessories and Trims. We're also about finding solutions, being creative, and building relationships. Thank you for being a part of this amazing journey. Together, we'll keep shaping the future of Basic Group and set new standards in the world of Garments Accessories and Trims for clothing.

- **Elastic:** Woven Adjustable, Woven Brush, Crochet Knit, Folded Elastic.
- **Tape:** Twill Tape, Herringbone Tape, Jacquard Tape, Woven Belt, Suspender Belt, Shoulder Tape, Rib Tape, Webbing, Cross Grain.
- **Draw String & Draw Cord:** Draw String, Draw Cord, Tube Draw String.
- **Heat Transfer Label & Sticker:** We are producing wide range of Heat Transfer Label & Stickers, including High Density Heat Transfer Label/Sticker.

Basic Trims Production

Yarn dyeing Production

We are manufacturing Polyester, Filament, and Nylon Dyed yarn to our valuable customers in cone and pineapple format as per their requirements. Our dyeing unit is fully set up with modern technology along with modern Lab-section. We have total 38 dyeing machines at present floor and these machines have capacity from 1Kg to 1000Kg per day.

ETP Plant

Basic ETP setup has been done by 100% Japanese Biological formula. All waste water from dyeing floor directly goes to ETP plant, after 6 steps of treatment the waste water becomes hazard free and suitable for lives (Plants & Fishes). We do not use any chemicals at our treatment plant.

Only natural and some biological components are being used for refreshing the water. Live bacteria is the main component for purifying the waste water.

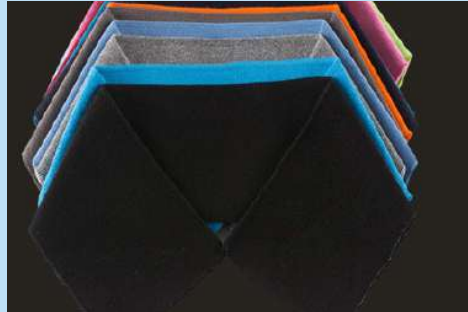

Continuous Dyeing Production

We have modern Continuous Dyeing machines to ensure 100% quality of production. Production capacity is 100,000 yard/day (Fold-over) or 50,000 yard/day (Woven elastic).

Basic Green Rib Composite

Basic Green Rib Composite is a sister concern of Basic Group, established in 2018 and we have established Basic Group in 1997 with Sewing Thread & Yarn Dyeing. We are Composite Rib Manufacturer & Supplier where you get finest raw yarn; OEKO-TEX, ICS, GRS certified yarn dyeing with the capacity of 10,000kg per day & complete rib manufacturing setup with latest technology under one roof.
